

Nada Velemir

Transforming high-stakes moments into meaningful growth

Overview

Nada is an evolutionary and transformational coach working with individuals, leaders, entrepreneurs and teams navigating complexity, high-stakes environments and moments of transition, misalignment or loss of meaning. For over ten years, she has worked in depth on the underlying patterns and conditioning that shape identity, decisions and relationships, enabling her clients to reconnect with their personal power and take clear, aligned and courageous action.

Her approach integrates Enneagram-based insights, systemic and alchemical coaching, and experiential, game-based processes. She brings a unique combination of depth and lightness, using humour and play even in complex and high-pressure environments, including private healthcare and medical teams. Combining strong empathy and joy with a direct and honest approach, she creates a space where clients feel safe to be challenged and supported, leading to meaningful and lasting change.
